Support for New Hospital Opening Project for Japan Heart Asia Children's Medical Center

Japan Transcity Group (the "Group") is committed to a broad range of social contribution activities through its business operations, as part of the basic policy to "promote ESG management and sustainability initiatives" set forth in its mid-term business plan.

The Group empathized with the philosophy of Japan Heart, a corporation engaging in specified non-profit activities whose mission is to "provide medical care to areas where it is currently out of reach, wherever that may be," and supported the New Hospital Opening Project for the Japan Heart Asia Children's Medical Center by utilizing the Group's global logistics capabilities, as outlined below.

As a global integrated logistics company, the Group will continue to contribute to society through its business operations.

1. Details of support: Integrated transportation services (using one 40-foot container) from Japan (Yokkaichi Port) to the Japan Heart Asia Children's Medical Center in Cambodia, which opened on October 31, 2025, delivering medical equipment, masks, gauze, medical clothing, and other supplies for use at the new facility.
2. Divisions involved: International Logistics, Chubu Regional Office
Customs Clearance Services Dept., Chubu Regional Office
Chubu Dept., Transport Business Div.
International Freight Forwarding Dept., International Business Div.
Trancy Logistics (Cambodia) Co., Ltd.

Members of the YFC Sales Office, International Logistics, Chubu Regional Office
